

YEISON BEDOYA

Senior Product Designer - UX/UI

Product builder with AI · Design Systems · SaaS · B2B · B2C

Work experience

DETECTA · Product Designer June 2024 - September 2026
B2B logistics security · Remote (Mexico)

- **Redesigned the Centaurus 2.0 app (Android)** with an offline-first architecture, voice commands, and Lottie micro-interactions, reducing manual review time by over 120 hours per month.
- **Unified the Monitoring Console** with engineering and operations (telemetry, VoIP, and protocols), reducing report time from 25 to 15 minutes with measurable and auditable SLA.
- **Designed the Control Tower** to centralize 300+ GPS accounts and transform monitoring into exception-based management.
- **Built and extended a design system** with tokens and WCAG AA accessibility criteria across the 3 products.

BELOG IT · Product Designer February 2023 - April 2024
Software factory · Hybrid (Argentina)

- **Designed 1 web platform and 6 management apps** in Flutter (iOS and Android) for Hubbing Latam's internal operations.
- **Built a design system** with a shared base and business-line variations to speed up development.
- **Standardized reusable micro-interaction patterns** across 7 products to maintain consistency.

FIERA STUDIO · UX/UI Designer May 2021 - November 2022
Software factory · Hybrid (Argentina)

- **Simplified Iké Asistencia's digital product processes** used by over 2 million users.
- **Created illustrations for the different products** of the web app and animations to highlight user actions and feedback.
- **Designed DemandCloud from scratch**, a B2B SaaS covering onboarding, control panel, scheduling, and reporting.

EDUCAEDU · UX/UI Designer November 2017 - May 2021
B2C EdTech · Hybrid (Argentina)

- **Redesigned acquisition pages** optimizing content strategy and UI, contributing to a 20% increase in enrollments.

Education

MASTER'S IN PROJECT MANAGEMENT January 2023 - Dec. 2023
Universidad Tecnológica Nacional (UTN) · Argentina

UX AND ACCESSIBILITY DIPLOMA January 2019 - December 2019
Universidad Tecnológica Nacional (UTN) · Argentina

GRAPHIC DESIGN DEGREE January 2012 - December 2018
Universidad de Buenos Aires (UBA) · Argentina

RECENT COURSES

AI for designers (Nelson Rodríguez-Peña, 2026)
Metrics and design (Sol Mesz, 2024)

About me

I design and build end-to-end digital products, integrating strategy, UX/UI, and design systems. To achieve this, I leverage AI and code as key drivers to prototype, develop, and take complex solutions straight to production.

I work collaboratively with business, product, and engineering teams to bridge the gap between design and development, validating hypotheses quickly and measurably.

Skills and tools

- Product Strategy
- UX/UI
- AI-assisted Development
- Claude / Cursor / Codex
- MCPs
- Agents
- Design Thinking
- Metrics
- Motion Design
- Lottie
- User Research
- Agile Methodologies
- Figma (Expert)
- Prototyping
- Design Systems
- Accessibility (WCAG)
- HTML
- CSS
- Hotjar
- Notion
- Adobe Suite

Languages

- Spanish (native)
- English B2+
