yeilopez.design@gmail.com

Manizales - Colombia (UTC-5)

PROFESSIONAL SUMMARY

Senior Product Designer with over 10 years in the craft. I have a strong foundation in graphic design that ensures visual quality, and I **combine it with business and technical understanding to bring each project to its full potential**. I adapt to both brands with an established identity and initiatives starting from scratch.

I iterate in short cycles, listen to engineering, design and business, and adjust based on data and user testing.

SKILLS

Product & Design

Product Strategy, UX/UI, Visual Design, Motion, Design Systems, WCAG AA Accessibility, Prototyping, Metrics, User Research, Usability Testing, AI applied to Data, Agile/Scrum.

Some tools

Figma (Expert), Lottie, Adobe Suite, Google Suite, Hotjar, Miro, Notion, Jira.

Prototyping & Code

Figma + AI integration, HTML, CSS, Vibe Coding (Next.js, React, Supabase).

Languages

Spanish (native) • English B2

WORK EXPERIENCE

DETECTA SECURITY • Product Designer

B2B logistics security • Remote (For Mexico) • June 2024 – April 2026

- **End-to-end redesign of Android mobile app (Centaurus 2.0):** offline-first architecture, hands-free voice commands, push notifications and Lottie micro-interactions. Outcome: -120 hours/month on manual review, 98% event-logging accuracy, +45% guard NPS.
- **Designed the web monitoring console** that replaced a fragmented ecosystem (WhatsApp + Excel) with a unified platform featuring telemetry, VoIP and automated emergency protocols. Outcome: 15-min average reporting time vs. 25-min SLA, 100% audit-ready compliance.
- **Led the Control Tower** that unifies APIs from 300+ GPS accounts into a single hub. Outcome: estimated 80% reduction in incident detection time.
- **Design System** with design tokens, dark mode and WCAG AA accessibility, applied across the 3 products.

BELOG IT • Product Designer

Software factory • Hybrid (In Argentina) • February 2023 – April 2024

- Redesigned the internal management system and designed 6 web applications from scratch in 14 months, end-to-end.
- To sustain that ecosystem, I adjusted the existing styles and built a Design System with a shared base and per-business-line variations, which accelerated the development of each app without losing its own identity.
- Defined reusable micro-interaction patterns that standardized UI feedback across the 7-product ecosystem.

FIERA STUDIO • Diseñador UX/UI y Motion Designer

Software factory • Hybrid (In Argentina) • May 2021 – November 2022

- Iké Asistencia (main client). Assistance and insurance services with 2M+ users in Argentina (roadside, home, pets). Applied and extended their existing brand system into digital product, keeping their identity.
- DemandCloud (Fiera-driven product). B2B SaaS for cloud cost optimization. Designed the platform 0→1: onboarding, savings dashboard, resource scheduling and operational reports.
- Created illustrations and animations to reinforce user feedback.

EDUCAEDU • UX / UI Designer

B2C EdTech • Hybrid (In Argentina) • November 2017 – May 2021

- Designed interfaces and visual content for educational centers with the goal of increasing course leads. Outcome: +20% enrollments through UI improvements and content strategy applied to each course offer's pages.

POTENCIAL DIGITAL • Diseñador Web Junior

Web design • On-site (In Argentina) • July 2015 - November 2017

- Drove the digitalization of local businesses by creating responsive websites in Bootstrap for 30+ clients, transforming their online visibility and generating direct sales impact through modern interfaces aligned with their goals.
