Manizales - Colombia

## PROFESSIONAL SUMMARY

Senior Product Designer with a **proactive and autonomous focus on leading end-to-end design processes**, from wireframes and user testing to final execution. I possess a solid technical foundation that allows me to maintain an **effective dialogue with engineering teams**, ensuring smooth integration and scalability. My process is based on **metrics analysis and continuous iteration to refine products until reaching the best possible solution**. I specialize in creating scalable design infrastructure and internal management tools, acting as a strategic bridge between business objectives and technical feasibility.

## SKILLS

Product Strategy, AI Data Insights, Metrics and Business, Design Systems, SaaS, Prototyping, Agile Methodologies, Lotti Files / Motion, Vibe Coding, Figma Expert, Html, Css, Hotjar, Adobe Suite, Miro.

## WORK EXPERIENCE

DETECTA SECURITY - Product designer

June 2024 - April 2026

- End-to-end redesign of Android mobile app (Centaurus 2.0): offline-first architecture, hands-free voice commands, push notifications, and Lottie micro-interactions. Result: -120 monthly hours in manual review, 98% effectiveness in event logging, +45% NPS from guards.
- Designed a web SaaS monitoring console that replaced a fragmented ecosystem (WhatsApp + Excel) with a unified platform featuring telemetry, VoIP, and automated emergency protocols. Result: 15 min average reporting time vs. 25 min SLA, 100% auditable compliance.
- Led the control tower unifying APIs from 300+ GPS accounts into a single hub. Result: 80% estimated reduction in incident detection time.
- Developed a Design System with design tokens, dark mode, and WCAG AA accessibility applied to all 3 products.

## **BELOG IT - Product Designer**

February 2023 – April 2024

- Led the development of an internal management system and 6 web applications from scratch, establishing a robust Design System that allowed each product to have its own color identity while maintaining total aesthetic alignment with the main brand.
- Integrated strategic micro-interactions to reinforce user actions and improve feedback in each task, ensuring that diverse applications were perceived as a unified, high-performance ecosystem despite their visual differences.

## **FIERA STUDIO - UX/UI & Motion Designer**

May 2021 – November 2022

- Led integral end-to-end digital transformation projects for multiple clients, modernizing complex manual workflows into optimized digital experiences through UX/UI research and design.
- Developed scalable interfaces that aligned product capabilities with business growth objectives, integrating strategic micro-interactions to ensure a modern and cohesive user experience.

## **EDUCAEDU - Contenido Web & UI Design**

November 2017 – May 2021

- Designed interfaces and visual content for educational centers with the goal of increasing course leads. Result: +20% in enrollments through UI improvements and content strategy applied to each offer's pages.

## **POTENCIAL DIGITAL - Diseñador Web Junior**

July 2015 – November 2017

- Impulsed the digitalization of local businesses through the creation of responsive websites in Bootstrap, transforming their online visibility and driving a direct increase in sales through modern interfaces aligned with their objectives.

## **HIGHER EDUCATION**

### **Postgraduate in Project Management**

Universidad Tecnológica Nacional (UTN)

January 2023 – December 2023

### **Diploma in UX and Accessibility**

Universidad Tecnológica Nacional (UTN)

January 2019 – December 2019

## **Graphic Design Degree**

Universidad de Buenos Aires (UBA)

January 2012 - December 2018

## **COURSES**

### **AI for Designers**

Nelson Rodríguez-Peña

August 2024 - September 2024

### **Metrics and Design**

Sol Mesz

February 2024 - March 2024

### **Product Designer**

Sol Mesz

February 2022 - March 2022

### **English**

Centro Universitario de Idiomas (CUI)

January 2019 - December 2022
